Ring sizer

Hong Kong and US sizes. Print on A4 at 100% ("actual size"), not "fit to page".

1 Check the print first

This line is exactly 100 mm. Measure it with a ruler.

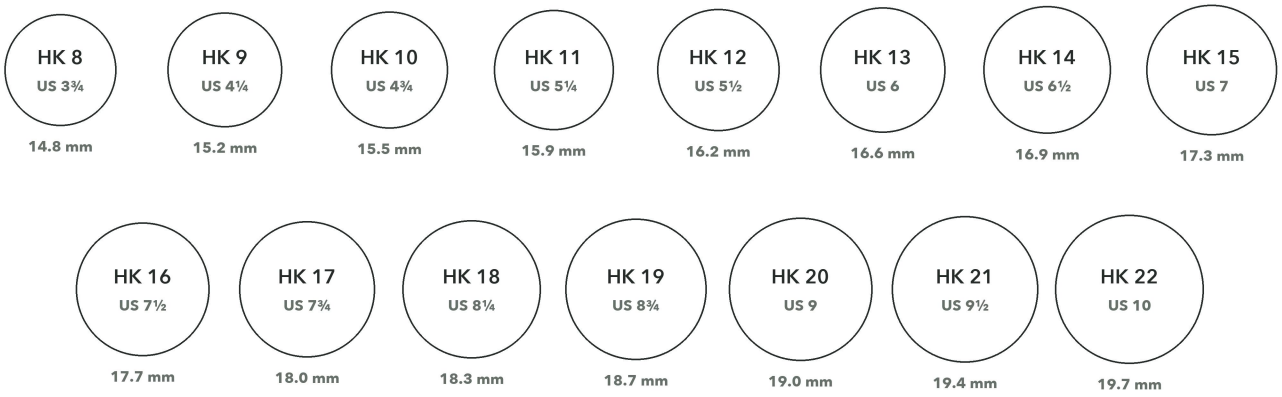

Bank card
85.6 × 54 mm

No ruler? Lay a bank card on the box. It should cover the box exactly, edge to edge.

If the line or the box is off, the sizes below will be wrong. Print again with scaling set to 100%.

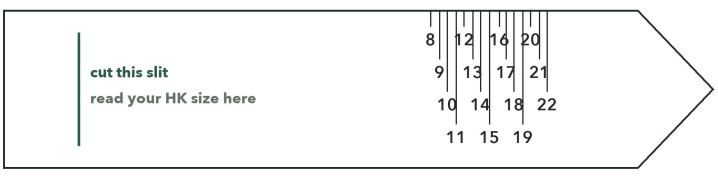

2 If you have a ring that fits

Lay the ring on the circles. Your size is the circle whose line sits just inside the ring, all the way round.

3 If you don't have a ring

1. **Cut out the strip along its outer line, then cut the short green slit.**
2. **Wrap it round the finger, numbers facing out, and push the pointed end through the slit.**
3. **Pull until it is snug but still slides over the knuckle. Read the HK size at the slit.**

HK	US	Around	HK	US	Around
8	3¾	46.5 mm	16	7½	55.6 mm
9	4¼	47.7 mm	17	7¾	56.5 mm
10	4¾	48.7 mm	18	8¼	57.5 mm
11	5¼	49.9 mm	19	8¾	58.7 mm
12	5½	50.9 mm	20	9	59.7 mm
13	6	52.1 mm	21	9½	60.9 mm
14	6½	53.1 mm	22	10	61.9 mm
15	7	54.3 mm			

- **Measure in the evening, when fingers are largest, and not when your hands are cold.**
- **Between two sizes? Take the larger. A wide band (5 mm or more) wears about half a size tighter.**
- **A paper sizer gets you close, not exact. We measure your finger again at the viewing.**
